Claims 11-14 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

a. Claim 14 appears to be at odds with claim 11, the claim from which it depends.

Claim 11 recites "... each of said heat exchangers is heated by steam having different compositions and different pressures ...", whereas, claim 14 recites the "means for heating said first heat exchanger by exhaust vapors" which is inconsistent therewith. The vapors in claim 14 is broadening the "steam" of claim 11.

b. It is unclear how the second dividing wall perform the "and/or turning chambers of the heat exchangers from each other" recited in the last two lines of claim 11.

c. It is unclear what "condenses" is being referred to in claim 12 as it is not initially recited in claim 12.

Claims 11-14 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

- a. Sharan discloses a heat exchanger with common distributors.
- b. Ramm-Schmidt et al discloses a liquid distributor for evaporator.
